Contents Index

Preface

Edward A. Friedman and Howard L. Resnikoff 1

Introduction

Diane Balestri and Stephen C. Ehrmann 3

Learning to Design, Designing to Learn: A More Creative Role for Technology

Diane Balestri and Stephen C. Ehrmann 9

Implementing Computer-Mediated Writing: Some Early Lessons

Carolyn Kirkpatrick 35

Writing as a Design Discipline

Richard Walton and Diane Balestri 47

The Design of Algorithms

David Ferguson and Peter Henderson 67

Restructuring the Curriculum for Design: Music Mathematics, and Psychology

Gerald Balzano 83

A Design Approach to Science: Simulated Laboratories, Learning via the Construction of Meaning

Nils Peterson, John Jungck, David Sharpe and William Finzer 111

MENDEL: An Intelligent Computer Tutoring System for Genetics

Problem-Solving, Conjecturing, and Understanding

Michael Streibel, James Stewart, Kenneth Koedinger, Angelo Collins and

John Jungck 129

Combining the Technical and the Artistic: A Software Model for Teaching About Energy Conservation in the Architectural Design Process

G. Z. Brown and Barbara-Jo Novitski 161

Educational Work-Nets Using Telecommunications Technology to Distribute the Load and Share the Wealth

Donald H. Sebastian 193

Computer-Aided Personalized System of Instruction

Joseph J. Rear 213

The Development of a Software Teaching Tool

Jesse Heines and Stuart Smith 239

Dynamic Testing: An Introduction

Garlie Forehand and William Ward 251

Computer-Based Simulations in the Evaluation of Physicians Clinical Competence Donald E. Melnick and Stephen G. Clyman	257
The College Board Computerized Placement Tests: An Application of Computerized Adaptive Testing William C. Ward	271
Computerized Mastery Testing Charles Lewis and Kathleen Sheehan	283
Diagnostic Assessment in Instruction Garlie Forehand and Myrtle W. Rice	287
Psychometric Alchemy: Smart Tests from Dumb Charles Dinerstien and Carl E. Heil	297
A Semi-automatic Procedure for Scoring Protocols Resulting from Free Response Sentence-combining Writing Task Roy Freedle	309
A Sentence-based Automate Approach to the Assessment of Writing: A Feasibility Study Isaac Bejar	321
Error Analysis and Tutor Design Drew A. Gitomer and Deborah A. van Slyke	333
Implicit Testing Within an Intelligent Tutoring System John R. Frederiksen and Barbara Y. White	351
